PROFESSIONAL PROFILE

Detail-oriented **Technical Writer** with a background in **full-stack development** and **ESL instruction**. Skilled at transforming complex software features into clear, user-friendly documentation, including developer guides, API docs, tutorials, and UI copy. Experienced in collaborating with clients, developers, and designers to create instructional content that meets user needs. Knowledgeable in UI/UX principles and CSS design libraries for intuitive content layout. Strong communicator, adept at breaking down complex concepts for technical and non-technical audiences.

TECHNICAL WRITING PROJECTS

- **Install Node.js on Ubuntu** – Markdown tutorial covering multiple installation methods for junior developers and Linux users.
- **How to Configure a .gitignore File** – Beginner-focused guide explaining creation and management of .gitignore files.
- **Get Started with NASA's API** – Technical onboarding guide with code examples, authentication steps, and response parsing.

NOTE: Additional technical writing samples are available upon request or on GitHub.

EXPERIENCE

ESL Instructor | Global Village – Calgary, AB   **Sept 2022 – present**

- Designed and developed a travel-themed educational website using JavaScript: worklearntravel.ca, ensuring content, layout, and visuals were user-friendly and aligned with learner needs.
- Created ~40 lesson plans simplifying complex English grammar for ESL learners—transferrable skills for simplifying software documentation.
- Applied visual and content design principles to enhance clarity and engagement, similar to UI/UX writing for software platforms.

Software Developer | ReSkill – Calgary, AB   **Jun 2024 – Aug 2024**

- Integrated Facebook and Google authentication into an AI-powered grant-writing platform using Next.js and TypeScript.
- Refactored and restyled UI with Ant Design (Antd) component library to improve usability and visual consistency, gaining hands-on experience with design-oriented development.
- Contributed the highest number of GitHub commits during the project.

ESL Tutor | Ukraine, China, Vietnam, Canada   **2015 – 2022**

- Delivered personalized instruction for diverse learners, adjusting tone, style, and complexity—mirroring skills needed to write for both technical and non-technical software users.
- Gathered feedback and adapted teaching materials, comparable to gathering client/user input for software documentation.

SKILLS & TOOLS

- **Technical Writing & Documentation:** Step-by-step guides, FAQs, tutorials, UI copy
- **UI/UX Design:** Ant Design, CSS design libraries, layout clarity, user-friendly content
- **Development:** Next.js, TypeScript, JavaScript, Node.js, Git/GitHub
- **Communication:** ESL instruction, clear explanations for diverse audiences, client collaboration
- **Software Tools:** Microsoft Word, Adobe products

WEB-DEVELOPER PROJECTS

- **Medium-Clone** | Stack: Vite, React, Firebase, HTML, SASS   **Apr 2025**
  A full-stack web application that replicates the functionality of Medium, allowing users to share articles, engage with content, and interact with a community of writers and readers.
- **GPT Grammar** | Stack: JavaScript, OpenAI, Netlify, API, Bootstrap, CSS, HTML   **Nov 2024**
  An AI-powered web app that corrects your sentences, analyzes errors, and provides detailed explanations of your mistakes.
- **Andrew-chat** | Stack: React (vite), Firebase, Sass   **Sept 2024**
  A web application built with firebase, that can help friends communicate and share pictures.

EDUCATION & CERTIFICATIONS

- **Certificate – Technical Writing: How to Write Software Documentation** | Udemy   **Apr 2025**
- **Diploma – Full-Stack Web Development** | Lighthouse Labs, Canada   **Oct 2023 – May 2024**
- **Bachelor's Degree – English Language & Literature** | Ukraine   **Sept 2010 – May 2015**
